

WHAT YOU NEED

Push broom, scraper, untreated dust mop, wet mop, bucket and wringer, Buckeye Green Light™ Super Concentrated Floor Cleaner, high speed burnisher, autoscrubber, vacuum cleaner, dust pan.

TRAINING DVD

Check out the **Buckeye Reflections® Wood Floor Program Training DVD** with English and Spanish options! This DVD includes all the information you need to achieve shiny wood floors: Assessment and Planning, Preparation, Wet Cleaning and Abrading, Oil and Water-Based Wood Floor Coating Application, Wood Floor Precautions, and Maintenance Procedures.

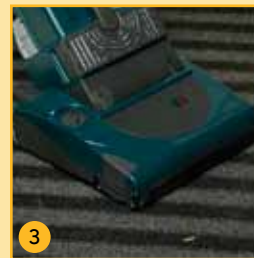

DAILY

Spot Cleaning: Damp mop spills with a ¼ oz. per gallon dilution of Buckeye Green Light.

Dust mop floor with untreated mop to remove surface dust.

Vacuum entryway mats.

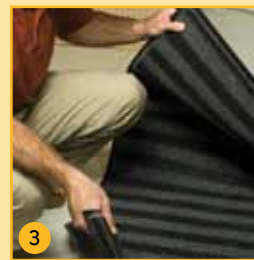

WEEKLY

Spot Cleaning: Damp mop spills with a ¼ oz. per gallon dilution of Buckeye Green Light.

Dust mop floor with untreated mop to remove surface dust.

Unload soil from entryway mats.

AS NEEDED

Use push broom or vacuum to remove heavy grit and debris.

Remove gum and tape

Use a white pad and Buckeye Green Light to remove black marks.

Use protective matting in high traffic areas during special events or any structural maintenance.

SPECIAL

Scrub floor with autoscrubber, white pad and Buckeye Green Light to remove heavy soil from weekly gym use.

Burnish floor (FloorTonic™) to restore gloss on Arena™ 200, and Arena 300 wood floor coatings.

NOTES

1. Frequent use of an autoscrubber is not recommended. Grit will accumulate in the cleaning pads and scratch the floor, which removes gloss prematurely. Also, moisture may build up in wood floor boards and cause damage to the floor.
2. Dust mops often leave a fine dry talc-like powder behind that can cause slipping. A second dry or damp tacking of the floor with microfiber materials is recommended.
3. Solvent-based polyurethane coatings do not respond to high speed burnishing.
4. No Tape — Game lines, matting and extension cord tape may remove coating.
5. Complete the cleaning procedures listed above to avoid slip problems.
